

U.S. Department of Transportation
Office of the Secretary of Transportation
Bureau of Transportation Statistics

Financial Statistics

The Bureau of Transportation Statistics (BTS) is undertaking a major effort to improve the publication of revenue, expenditure, and financial statistics relevant to transportation decision makers. We are looking for ways to improve the timeliness of popular statistics that we already publish, for ways to represent public-private partnerships across modes and at all levels of government, and for new measures that will provide useful insights to the transportation community.

BTS is evaluating:

- the current state of transportation statistics
- the issues and challenges with existing statistics
- the future needs for transportation financial statistics.

Based on these evaluations, BTS plans to improve upon and develop a new financial statistical series.

Are you a current user of transportation financial statistics? Do you want to contribute to the improvement of these statistics?

BTS plans to engage with key stakeholders over the next year. If you are interested in being a part of the conversation, reach out to Stephanie Lawrence at stephanie.lawrence@dot.gov.

For more information contact stephanie.lawrence@dot.gov about BTS Financial Statistics or visit:
